I craft simple and practical designs for websites, logos, and print. I work using the latest techniques and standard-based code to ensure the best usable solution.

## COMPANY

## RESPONSIBILITIES

### RelayRides

February 2015 - Present

### Visual & Web Designer

I work with the marketing team to deliver high fidelity graphics for campaigns. We then use the graphics to create new web pages for various promotions and special operations. Tools we use at RelayRides include: Github, Mustache, Java, and LESS.

### RCC Inc.

December 2010 - Present

### Visual & Web Designer

Design the company brand. This includes designing all the websites, logos, emails, and prints. I also redesigned the current website and made it responsive. I maintain all the live websites and create ads for social media and public relations.

### YourSports

April 2011 - Sept. 2014

### UI/UX Lead Designer

Created low fidelity interface layouts for website and mobile production. I also design the emails and printed materials. Worked with the team to establish the user interface of the mobile app.

### Zazzle

September 2009 - April 2011

### Photoshop Engineer

Used Photoshop to retouch customer images. Created a photoshop action that the company used to ready images for print. Designed and printed products.
